

TEST REPORT

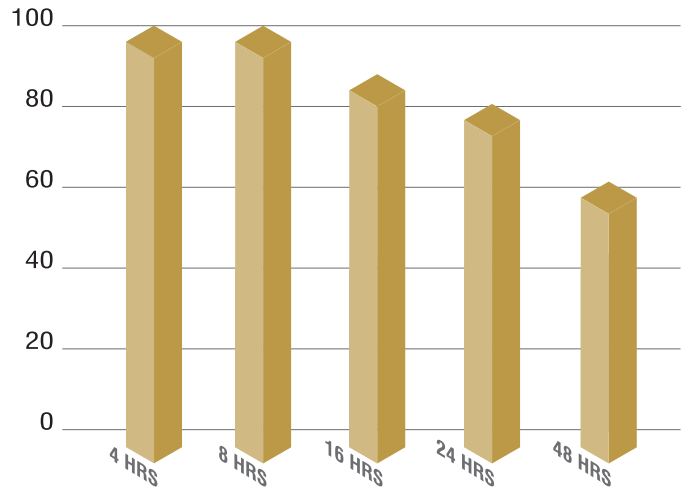

SENSIFRESH WHITENING SENSITIVE ZONE DEODORANT EFFICACY TEST REPORT

TEST OBJECTIVE

To study the antiperspirant & deodorant efficacy of "Sensifresh Whitening Sensitive Zone Deodorant".

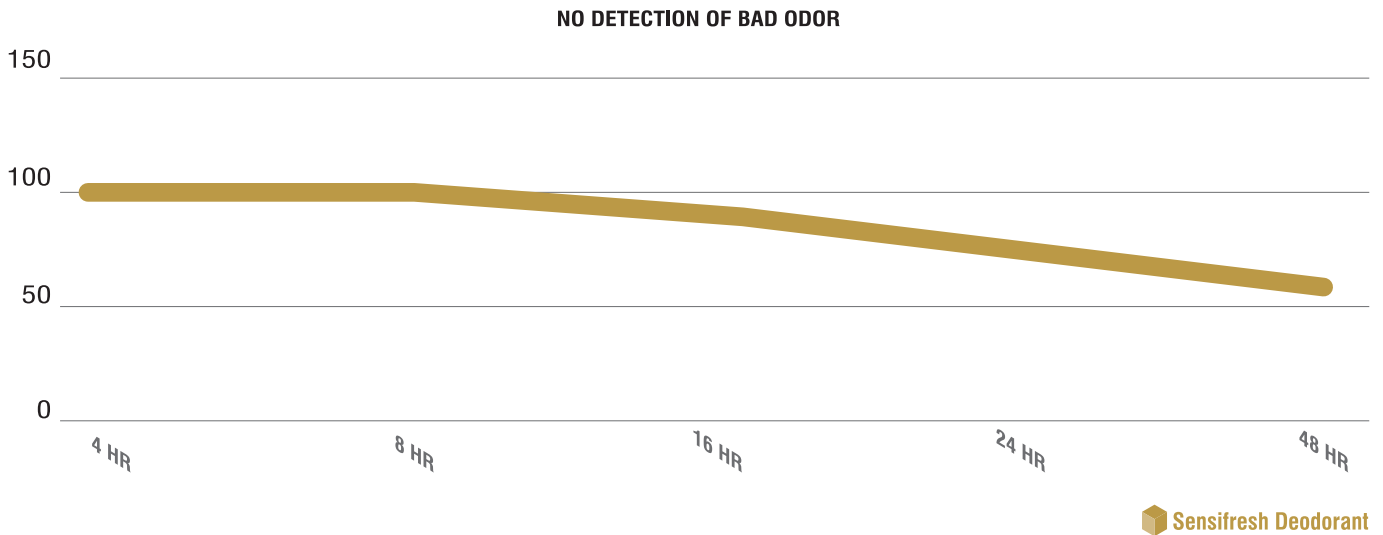

ANTIPERSPIRANT EFFICACY

Comparative test for detecting the antiperspirant activity (sweat reduction by 20%) on a panel of 25 female volunteers. Sweat amount was measured during 48 hours.

DEODORANT EFFICACY

Sniffing test for Deodorant activity (No detection of mal odor) on a panel of 25 female volunteers. They defined the degree of malodor on a 0 to 10 scale (0 has the no axillaries odor, 10 has the strongest axillaries odor). The mean rate is then calculated.

CONCLUSION

Beesline Sensifresh Whitening Sensitive Zone Deodorant protect the skin from sweating & bad odors for 48 hrs.
